Since the early beginnings until today, we continue the tradition of quality and perfection by using only the finest materials from every corner of the globe and by trusting only the most gifted and meticulous craftsmen.

By following the latest discoveries and innovation and by using state-of-the-art technology, our brand became a synonym of quality, fine detail, masterful creation...

For the Almero mattresses we source the best natural materials and we apply the latest global technologies. The skillful hands of our craftsmen carefully combine each element and pay attention to every detail when making the mattresses in order to provide you with the necessary comfort to have a perfect sleep.
Our beginnings date 30 years back when our production capacities covered a surface of only 1,000 square meters, and today we can boast production plants that cover a total area of 17,000 square meters.

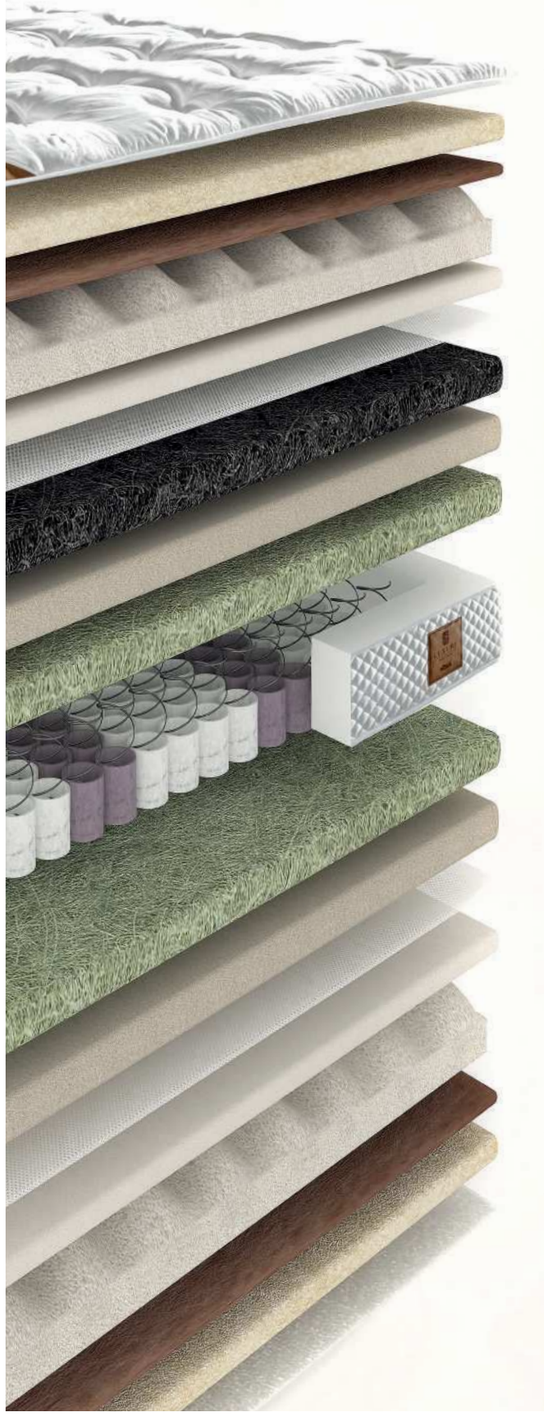
We offer a wide line of products, ranging from spring mattresses with various characteristics to mattresses made of natural materials and without springs, as well as mattresses made with latex, coconut fibers and camel hair, and pillows.With an iconic design and carefully nourished reputation that was being refined for more than 30 years in order to deliver a quality, long-lasting and comfortable mattress that provides a support to your body every time you rest.

Almero is the first and only production plant in the Republic of Macedonia that is specialized only for the production of mattresses.

mattresses

luxury

Cactus Aloe Vera is widely used in the cosmetic & alternative medicine industry, due to its soothing & rejuvenating properties. This Cactus layer offers a naturally anti-bacterial & soothing environment for you.



Viscose Woven Fabric

Wool wadding

Camel Hair

Hypersoft Roller

Contour Foam

Hypersoft Roller Foam

Buckram

Wool is warm when you're cold and cool when you're roasting. Wool is nature's performance material, and it's also incredibly flame-resistant!

Horse Hair

Laminated HR Foam

Cactus

Few materials can match horsehair when it comes to constructing a bed. Every single curled strand of horsehair works as a tiny spring, enhancing the work of our internal spring systems, providing support and pliability. Horsehair also comes with its own extremely effective, built-in ventilation system.
